

SUBJECT: New Heatfab Saf-T Vent® 43° Elbow Now Available

DATE: August 28, 2025

PRODUCT: Saf-T Vent® Models CI+/CI316 double-wall, EZ+/EZ 316 and GC+/GC 316 single wall

Heatfab is pleased to announce the addition of a 43-degree elbow to our complete line of Saf-T Vent® systems. Now available for:

- CI Plus/CI 316
- EZ Plus/EZ 316
- GC Plus/GC 316

Applications

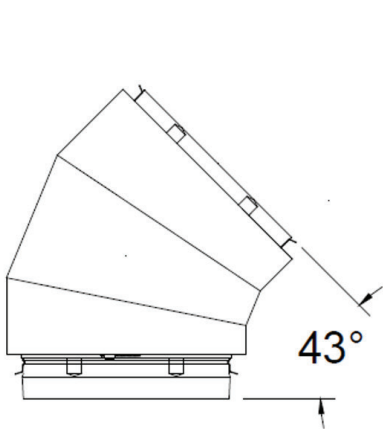

- Slope Management - Used in conjunction with a lateral tee to ensure the proper slope when vent turns horizontal.
- Versatile Installation - Used to achieve offsets or changes in direction of vent systems

Features

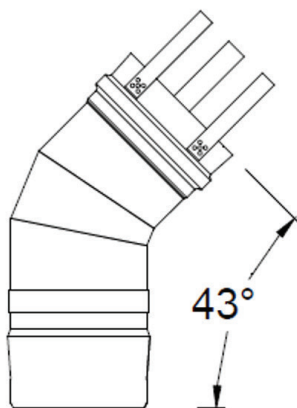

- Fully Welded Construction - Fixed angle
- Rotating Inlet Connection - Accommodates direction changes for installation flexibility
- Joint Components - Includes all necessary connection hardware for immediate installation
